

Thus CHAIROS is the oscillation of the world between breath and crystal.

## ◆ LimBo — The F4 Continuum (The Four Forces)

**F4** represents the universal resonance structure — the four fundamental forces expressed both physically and hermetically:

Symbol	Force	Field Aspect	Hermetic Reflection
<b>G</b>	Gravitation	Mass coherence	Memory — the pull of the past
<b>EM</b>	Electromagnetism	Photonic tension	Presence — the weave of consciousness
<b>S</b>	Strong Force	Nuclear integrity	Purpose — cohesion through intention
<b>W</b>	Weak Force	Transformative decay	Transition — rebirth through release

Together they form the **LimBo Field**, the oscillation between structure (*KONKRETIK*) and radiation (*CHAIROS*).

**F4 = LIMBO**

**BO** = symmetry over Origin  $\rightarrow \Omega$

Mathematically:

$$F_4 = \{G, EM, S, W\} = LIMBO = \nabla(L \cdot M \cdot \Omega)$$

“The four are one — the wings of light that remember the fall.”
